DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Applicant's argument submitted 10/25/04 has been found persuasive. Takeo shows a similar vibration damping device as in the present invention. However, Takeo does not teach the static pressure control mechanism as claimed in claim 1; since it is correct that fluid would not pass orifice 5 only when the oscillating plate 12 is in an active condition. When the oscillating plate 12 is in a static condition, fluid would pass through orifice 5 and would not isolate chamber 31 from chamber 11 in order to induce a substantially static elastic deformation of said elastic oscillating plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lan Nguyen whose telephone number is 703-308-8347. The examiner can normally be reached on M-F, 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 703-308-0830. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
